REFRESH YOUR MINDS !

In line with its continuous endeavours towards boosting employees' knowledge, PR Department is pleased to share with you a couple of interesting facts on a weekly basis under the theme of "Refresh Your Mind"!

TRAVEL DESTINATION

ADDIS ABABA, ETHIOPIA

Sime and his partner, the curator and cultural anthropologist Meskerem Assegued, opened the Zoma Museum after a 20-year planning and building process. Situated in the Mekanisa neighborhood, the museum blends Ethiopia old and new, using vernacular architecture as a backdrop for contemporary art — including some of Sime's own pieces. In its attention to both traditional and modern influences, Zoma parallels the aims of Addis Foto Fest, a biennial photography festival that will be held again in December 2020. Until then, find work by the country's finest artists on display at institutions such as St. George Gallery, Addis Fine Art, and LeLa Gallery. —

WILD LIFE

HYENAS

Hyenas or hyaenas are any feliform carnivoran mammals of the family Hyaenidae. With only four extant species, it is the fifth-smallest biological family in the Carnivora, and one of the smallest in the class Mammalia. Despite their low diversity, hyenas are unique and vital components of most African ecosystems.
