BAHRAIN'S FIRST ROCK-FREE BEACH OPENS THIS SATURDAY

The "Golden Beach" will open on the 21st of September after two years of work to create the first rock-free beach in the Kingdom. The project, located in Durrat Al-Bahrain project south of Bahrain, is divided into 5 sections and is said to have the region's longest maritime theme park that features 96 different games.

The beach was cleared of stones and impurities 9 times through the latest types of devices with a depth of 40 centimeters by a team of divers.
