Grade 11 IB Business Management Students as part of their CAS activity set up a Social Enterprise. They designed and developed small giveaways to spread Women's Health Awareness at Bahrain Bayan School that were made in Al Romaini Innovation Hub and in collaboration with the School's Doctor, Dr. Fatima Al Matrook. The key chains, pins, necklaces, bracelets, mask straps, stickers incorporated the pink ribbons and were distributed around the school to teachers and students to raise Awareness on Women's Health.

# GENERAL NEWS IN BAHRAIN

## **Bahrain approves Pfizer COVID vaccine for children aged 5-11**

Bahrain has approved the Pfizer COVID-19 vaccine for emergency use for children aged between 5 and 11 years, the government media office said on Tuesday. The decision came after a study involving 3,100 children aged between 5 and 11 were administered with the vaccine found it to be 90.7 percent effecting in that age group, said the statement, citing the National Health Regulatory Authority. None of the children involved in the study showed severe side effects, it said. Bahrain will be supplied with doses from the manufacturer for the 5-11 age group from the start of 2022, it said.

## **VAT increase and jobs boost as Bahrain unveils economic plan**

Bahrain rolled out an economic plan that seeks to invest nearly \$30 billion in strategic projects to fuel post-coronavirus growth, boost employment for citizens and attract foreign investment. As per the multi-year plan, the government adopted cost rationalisation measures, including increasing VAT to 10 per cent, the official Bahrain News Agency said on Sunday. The move is expected to help the island kingdom balance its budget by 2024. It aims to create more than 20,000 jobs for citizens annually until 2024 and train 10,000 more through its Tamkeen programme. The government also unveiled details of an initiative that seeks to attract \$2.5bn in foreign direct investment by 2023. Under the latest plan, six new sector strategies will be implemented across oil and gas; tourism; logistics; financial services; telecommunications, IT and digital economy and the manufacturing sector. The move is expected to help the non-oil sector grow 5 per cent annually by 2022. Bahrain is also taking steps to simplify the process of business licence approvals and will roll out an online portal to show off investment opportunities within the kingdom.
