# BAYAN SCHOOL NEWS

# W

Under the patronage of Her Excellency Sheikha Haya bint Rashid Al Khalifa, Chairman of the Board of Trustees of the Bahrain Chamber for Dispute Resolution, and the participation of a number of prominent personalities from ministers and ambassadors to the Kingdom in the closing ceremony of the conference, the work of the Model United Nations Conference will kick off on Friday and Saturday 18 and 19 November under the title "The Power behind the Lens" organized by Bahrain Bayan School with the participation of a large number of public and private schools in the Kingdom of Bahrain and Saudi Arabia. The Model United Nations is a simulation of an actual United Nations conference. It is also an extension of the previous conferences organized by the school for the fifteenth year in a row with high professionalism and continuous excellence, which prompted us to obtain accreditation from THIMUN- The Hague International Model United Nations, which has become internationally recognized. Where students meet to discuss controversial global issues to find effective solutions. These discussions contribute greatly to developing their public speaking and analytical skills, and teach them how to negotiate in a diplomatic manner in a cultural and social environment. With this participation, we will have achieved the official goal of the conference through mixing between the groups of one society and other societies. We hope that this conference will achieve the desired goals of its establishment.
