The BBS High School IB Team and Grades 9-12 staff members evidenced a true model of synergetic collaboration , with the support and guidance of all IB Subject Leaders and IBDP Coordinator who collaboratively conducted an in-school professional development session which focused on the IB self-study questionnaire. All participants were highly engaged in an interactive and productive group work discussion that resulted in documenting transparent and positive outcomes which provided reflections and insights on the IB 2020 Programme Standards and Practices. We sincerely thank High School staff members for their hard, remarkable input and support in the IB evaluation process.
