The annual seniors trip kicked off in Interlaken, Switzerland, where students were actively engaged in all sorts of activities that led to personal growth. In Geneva, students were involved in educational visits to the UN, CERN as well as exploring the city. The senior trip ended in the most memorable place, Euro Disney, Paris. Students underwent challenges, explored and created memories of a lifetime during this trip. We would like to thank @thejourneyadventures and our team of chaperones for ensuring the trip was a success and for your hard work and dedication to the students and their safety.

In light of the partial eclipse which took place today, Bayan School took the opportunity to teach all students from K-12 about the eclipse. Preschool and Primary students watched educational videos and were able to view the eclipse through a live stream on the smart boards in their classrooms. The Middle and High School students were given special sun-glasses and were taken outside to view the eclipse. As part of the educational experience students also visited the Makerspace where they created boxes through which they can view the eclipse. It truly was a sight to see and we are so happy we were able to give our students the opportunity to witness this event safely.
