Precautionary quarantine protocol update

Following approval by the Government Executive Committee, and based on the latest international data and developments, the National Medical Taskforce for Combatting the Coronavirus (COVID-19) has highlighted that starting from Thursday, 13 January 2022, the precautionary quarantine period will be seven days from the date of infection for individuals that hold a green shield on the BeAware Bahrain application. Green shield holders can exit quarantine after seven days without taking a PCR test. Individuals who are unvaccinated, or hold either a yellow or red shield on the BeAware Bahrain app, must quarantine for ten days from the date of infection and can exit quarantine after ten days without taking a PCR test. The Taskforce also announced an update to the precautionary quarantine protocol for travellers entering the Kingdom of Bahrain through all ports of arrival. Individuals holding a yellow or red shield on the BeAware Bahrain app and unvaccinated travellers will need to quarantine on arrival for a period of seven days. Travellers who hold a green shield on the BeAware Bahrain application are not required to quarantine. The Taskforce stressed the importance of conducting a PCR test if experiencing symptoms of COVID-19, and continuing to adhere to all health precautionary measures.

GENERAL NEWS IN BAHRAIN

The National Medical Taskforce:

The booster shot will be available by choice for those aged 12 to 17 years

Starting Wednesday, 12 January 2022

The green shield will not change to yellow on the 'BeAware' application for this age group if they do not receive a booster shot

Booster shots approved for adolescents aged 12 to 17

Following approval by the Government Executive Committee, and based on the latest international data and developments, the National Medical Taskforce for Combatting the Coronavirus (COVID-19), has announced that the booster shot has been made available by choice for adolescents aged 12 to 17 years, starting Wednesday, 12 January 2022. Adolescents in this age group who have received two doses of the Sinopharm vaccine will be offered the Sinopharm or Pfizer-BioNTech booster shots, approved for use from six months after the second dose. However, adolescents who have received both doses of the Pfizer-BioNTech vaccine will be offered the Pfizer-BioNTech booster shot only, also six months after the second dose. The Taskforce also noted that the green shield will not change to yellow on the 'BeAware' application for this age group if they do not receive a booster shot.

GENERAL NEWS IN BAHRAIN

Bahrain bans plastic water bottles offering less than 200 ml

Plastic water bottles offering less than 200ml of liquid capacity will no longer be allowed in Bahrain, local media reported. According to the Testing and Metrology Directorate, the ban covers the production, distribution and import of pre-packed plastic water bottles with a volume of fewer than 200ml. The move aims at reducing the impact of plastic waste on the environment. The ban also covers all plastic containers used to fill the water of various types, natural, gaseous, treated and sweetened. The new decision, is also valid for local factories, which will not be allowed to supply bottles with less than 200ml.
