## REFRESH YOUR MINDS !

In line with its continuous endeavours towards boosting employees' knowledge, PR Department is pleased to share with you a couple of interesting facts on a weekly basis under the theme of "Refresh Your Mind"!

### ENTERTAINMENT

#### DUBAI EXPO 2020

Dubai is hosting the first "World Expo" in the Middle East, Africa and South Asia spanning over 173 days, starting from 20th October 2020 until 10th April 2021, under the theme of "Connecting Minds, Creating the Future". This once-in-a-lifetime Expo is the largest event ever staged in the Arab world and is set to welcome 190 participating countries, and millions of visitors from across the globe. With everything from innovations and architecture to food and technology this is definitely an event not to be missed.

### TRAVEL DESTINATION

#### THE GLOWING CAVES OF WAITOMO

The ceiling of the Waitomo Caves in New Zealand looks like a star-speckled night sky. But those aren't stars shining in the dark—they're hundreds of glowworms that live there, transforming the cave into a fairytale landscape. The glowworms are just part of the lure, this subterranean system of 300 caves also has impossibly delicate stalactite formations in various caverns and is home to the Cathedral, a world-famous formation that has superb acoustics due to its rough walls and enclosed shape.

### WILD LIFE

#### KOALAS

Though often called the koala "bear," this cuddly animal is not a bear at all; it is a marsupial, or pouched mammal which means a female koala carries her baby in her pouch the first six months. Koalas live in eastern Australia, where the eucalyptus trees they love are most plentiful. In fact, they rarely leave these trees, during the day they doze, tucked into forks or nooks in the trees, sleeping for up to 18 hours.
