REFRESH YOUR MINDS !

In line with its continuous endeavours towards boosting employees' knowledge, PR Department is pleased to share with you a couple of interesting facts on a weekly basis under the theme of "Refresh Your Mind"!

THEATRE

SWAN LAKE BALLET

The original Swan Lake ballet was written in 1876 and soon became one of the most famous ballets of the world and the real gem of the Russian ballet school. Swan Lake is known to be one of the most unique and outstanding performances that can't be compared to any other existent ballet performances. In celebration of the Bahrain National Theatre's opening anniversary, prominent dancers from the world-known Perm Opera and Ballet Theatre performed this revolutionary ballet piece on Tuesday 12th November 2019.

TRAVEL DESTINATION

UBUD, BALI

Ubud is one of those places where a holiday of a few days can easily turn into a stay of weeks. The town of Ubud, in the uplands of Bali, Indonesia, is known as a center for traditional crafts and dance. The surrounding Ubud District's rainforest and terraced rice paddies, are among Bali's most famous landscapes and is also home to The Ubud Monkey Forest.

WILD LIFE

FLAMINGO

Flamingos are famous for their bright pink feathers, stilt-like legs, and S-shaped neck. When a flamingo spots potential dinner—favorite foods include shrimp, snails, and plantlike water organisms called algae—it plunges its head into the water, twists it upside down, and scoops the fish using its upper beak like a shovel. They are able to "run" on water, thanks to their webbed feet, to gain speed before lifting up into the sky.

SAFETY FIRST

Kindly discuss the below weekly theme of Safety Hour amongst yourselves in order to sustain the safety momentum.

This Week's Theme:

Rain Safety

Driving in the rain can be both scary and dangerous, and it's important to take wet weather seriously when you're on the road. There are lots of things you can do to make driving in the rain safer, including being prepared by making sure your car is ready and ensuring you can always see properly. But most importantly, you have to drive according to the conditions, and adjust a few of your habits to avoid sliding, skidding, or being involved in an accident.

Fun Facts That Will Make You Smile

THE ENTIRE WORLD'S POPULATION COULD FIT INSIDE LOS ANGELES.

The world's total population is more than 7.5 billion. And obviously, that number sounds huge. However, it might feel a little more manageable once you learn that if every single one of those people stood shoulder-to-shoulder, they could all fit within the 500 square miles of Los Angeles, according to National Geographic.

FACTS

Before chicks hatch, they can communicate with each other and their mother through a system of sounds.
