HUMANS

THE FASTEST MAN EVER!

Usain Bolt, is the fastest man in history with a world record time of 9.58 seconds.

Usain St Leo Bolt, (born 21 August 1986) is a Jamaican former sprinter. He is a world record holder in the 100 meters, 200 meters and 4 × 100 meters relay. Owing to his achievements and dominance in sprint competition, he is widely considered to be the greatest sprinter of all time. An eight-time Olympic gold medalist, Bolt is the only sprinter to win Olympic 100 m and 200 m titles at three consecutive Olympics (2008, 2012 and 2016). In addition he won two 4 × 100 relay gold medals. He gained worldwide fame for his double sprint victory in world record times at the 2008 Beijing Olympics, which made him the first person to hold both records since fully automatic time became mandatory.

WILD LIFE

WHITE TIGERS

The white Bengal tigers are distinctive due to the color of their fur. The white fur caused by a lack of the pigment pheomelanin, which is found in Bengal tigers with orange color fur. When compared to Bengal tigers, the white Bengal tigers tend to grow faster and heavier than the orange Bengal tiger. They also tend to be somewhat bigger at birth, and as fully grown adults. White Bengal tigers are fully grown when they are 2–3 years of age. White male tigers reach weights of 200 to 230 kilograms (440 to 510 lb) and can grow up to 3 meters (9.8 ft) in length. As with all tigers, the white Bengal tiger's stripes are like fingerprints, with no two tigers having the same pattern. The stripes of the tiger are a pigmentation of the skin; if an individual were to be shaved, its distinctive coat pattern would still be visible.
